

Coal Seam Gas (CSG) Drilling Well Control

Duration: 3 Days **Maximum Number of Attendees:** 10

Designed for: Personnel working in the Coal Seam Gas (CSG) sector who:

- have not previously attended a well control school
- are unfamiliar with the operation of a Blow Out Preventer (BOP) stack during drilling and workover operations
- would like a basic introduction to well control

Course Overview: The Coal Seam Gas Drilling (CSG) Well Control course enables participants to obtain introductory well control certification. All participants sit an International Well Control Forum (**IWCF**) **Introduction to Well Control** exam upon completion of training. This international accreditation is globally recognised as industry best practice.

Welltrain provides two highly experienced and accredited instructors and utilises an effective blend of classroom theory, individual exercises, group discussion and drilling simulator practice to ensure participants develop an understanding of well control theory, practices and equipment as applicable to CSG drilling.

Our small group size ensures all participants receive maximum assistance from our instructors and sufficient time to complete practical exercises on the simulator.

Course Content: The following topics are addressed:

- Introduction to the drilling rig and its equipment (hoisting, rotating, circulating and Blow Out Prevention (BOP) systems)
- Controlling the well
- Kicks – what is a kick, what causes a kick
- Fluids and pressures
- Basic hydrostatic calculations
- How to complete a trip sheet
- The trip tank system
- Basic tripping calculations
- Shut-in Methods (drilling and tripping)
- Benefits, capabilities and operation of a drilling simulator
- Shut in while drilling or tripping (simulator exercises)

Course Inclusions:

- Light lunch, tea/coffee and snacks each day.
- Provision of electronic copies of pre-course workbooks.

Course Options: A participant who books on the five day IWCF Drilling Well Control course within three months of successfully completing this course receives a discount of \$AU 400.

Course Fees: \$AU 1,500 (inc GST)
