

Training to Reduce Unscheduled Events (TRUE)

Duration: 3 Day (Generic) or 4 or 5 Day (Customised) **Maximum Number of Attendees:** 18

Designed for: Office based drilling personnel (drilling supervisors, engineers, superintendents); all rig based drilling personnel (drillers, tool-pushers, rig managers and OIMs); and Service Company supervisors and engineers (mud, cementing, directional and related disciplines).

Course Overview: **Training to Reduce Unscheduled Events (TRUE)** is focused on developing a rig team approach (drilling and service personnel) to solving the many challenges of drilling well. The course examines, in detail, how to develop a well/rig specific hole section action plan with the objective of understanding the root causes of Non-Productive Time (NPT) and raising awareness levels, in an effort to reduce rig operation NPT.

Course Content: TRUE training modules can be delivered in either a scheduled three day generic format using case histories and simulator based exercises or be customised (four or five day) to meet the rig or well specific concerns of the operator/contractor.

The workshop can be delivered in-house or On-The-Rig (OTR), as required. TRUE course modules include:

- Team building principles
- Well planning
- Stuck pipe
- Lost circulation
- Rig repair
- Down hole equipment failure
- Drill string failure
- Drilling jars
- Well control
- Casing / cementing
- Horizontal drilling
- Investigation package

Course Inclusions:

- Light lunch, tea/coffee and snacks each day.
- Welltrain certificates of attendance (documenting training topics) for each participant.
- A TRUE rig-site modular handbook.

Course Fees: \$AU 3,300 (inc GST)
Group pricing for team workshops available upon request – course customisation available for team bookings.
